

C L A I M A M E N D M E N T S

Please **AMEND** the claims as follows:

1. (CURRENTLY AMENDED) A method for conducting a transaction, comprising:
receiving information for a transaction;
determining a pool of at least one possible supplemental product;
scoring at least one supplemental product in said pool based at least on profit of the at least one possible supplemental product;
selecting at least one supplemental product from said pool for said transaction; and
providing an indication of said at least one supplemental product selected from said pool.
2. (ORIGINAL) The method of claim 1, wherein selecting at least one supplemental product for said transaction includes
selecting a plurality of possible supplemental products.
3. (ORIGINAL) The method of claim 2, further comprising:
scoring each supplemental product in said plurality of supplemental products.
4. (CURRENTLY AMENDED) The method of claim 3, wherein said scoring uses at least one of the following:
~~scoring based on profit of one or more products;~~
scoring based on preparation time of one or more products;
scoring based on inventory level of one or more products;
scoring based on popularity of one or more products for a specific user;
scoring based on popularity of one or more products for a group of one or more users;
scoring based on discount; and
composite scoring.
5. (ORIGINAL) The method of claim 3, wherein said selecting comprises choosing at least one supplemental product that has a score that at least equals a predetermined threshold.

6. (ORIGINAL) The method of claim 2, wherein said selecting comprises choosing at least one of the following:

an additional supplemental product;
a replacement supplemental product; and
an upgrade supplemental product.

7. (ORIGINAL) The method of claim 1, further comprising at least one of the following:
providing said at least one supplemental product; and
arranging for said at least one supplemental product to be provided.

8. (ORIGINAL) The method of claim 1, further comprising the following:
establishing at least one predetermined scoring threshold.

9. (ORIGINAL) The method of claim 1, further comprising at least one of the following:
establishing at least one filter; and
applying at least one filter.

10 - 49. (WITHDRAWN FROM CONSIDERATION)

50. (ORIGINAL) A method for conducting a transaction, comprising:
receiving information associated with a sale of a product;
identifying a supplemental product based at least in part on profitability of said product;
determining an offer amount for said supplemental product;
providing an indication of an offer to sell said supplemental product at said offer amount;
and
receiving an indication of an acceptance to purchase said supplemental product at said offer amount.

51. (ORIGINAL) The method of claim 50, wherein said offer amount is based, at least in part, on at least one of an amount of change due or a round-up amount.

52. (ORIGINAL) The method of claim 50, wherein said identifying includes determining at least one product category involved in the transaction.
53. (ORIGINAL) The method of claim 50, wherein said identifying includes creating at least one product group involved in the transaction.
54. (ORIGINAL) The method of claim 53, wherein said identifying includes determining at least one complimentary product category.
55. (CURRENTLY AMENDED) The method of claim 50, wherein said ~~selecting~~ identifying includes determining a pool of at least one possible supplemental product.
56. (ORIGINAL) The method of claim 50, further comprising:
scoring at least one possible supplemental product.
57. (ORIGINAL) A method for conducting a transaction, comprising:
receiving information associated with a sale of a product, said information including a tender amount and a transaction total;
identifying a supplemental product based at least in part on profitability of said product;
providing an indication of an offer to sell said supplemental product at an offer amount;
and
receiving an indication of an acceptance to purchase said supplemental product at said offer amount.
58. (ORIGINAL) The method of claim 57, wherein said offer amount comprises a difference between said tender amount and said transaction total.
59. (ORIGINAL) The method of claim 57, wherein said identifying includes:
scoring at least one possible supplemental product.
- 60 - 69. (WITHDRAWN FROM CONSIDERATION)

70. (CURRENTLY AMENDED) A method for conducting a transaction, comprising:
processing a sale of a product;
receiving a tender amount for said product;
selecting a supplemental product ~~from a plurality of products~~ based at least in part on
~~profitability of~~ said product and said tender amount; and
providing an indication of an offer to sell said supplemental product at an offer amount.
71. (ORIGINAL) The method of claim 70, wherein said offer amount is based on at least one of the following:
an amount of change due a user during the transaction;
a round-up amount;
a difference between said tender amount and a transaction total;
a cost for said at least one supplemental product; and
a fixed amount.
72. (ORIGINAL) The method of claim 70, wherein said selecting includes associating a score with said supplemental product.
73. (ORIGINAL) The method of claim 70, further comprising:
establishing a pool of at least one possible supplemental product.
74. (ORIGINAL) The method of claim 70, further comprising:
scoring at least one possible supplemental product.
- 75 - 76. (WITHDRAWN FROM CONSIDERATION)

77. (CURRENTLY AMENDED) A system for conducting a transaction, comprising:
a memory;
a communication port; and
a processor connected to said memory and said communication port, said processor being operative to:
receive information for a transaction;
determine a pool of at least one possible supplemental product;
score at least one supplemental product in said pool based at least on profit of the at least one possible supplemental product;
select at least one supplemental product from said pool for said transaction; and
provide an indication of said at least one supplemental product selected from said pool.

78 - 100. (WITHDRAWN FROM CONSIDERATION)

101. (CURRENTLY AMENDED) A system for conducting a transaction, comprising:
a memory;
a communication port; and
a processor connected to said memory and said communication port, said processor being operative to:
process a sale of a product;
receive a tender amount for said product;
select a supplemental product from a plurality of products based at least in part on profitability of said product and said tender amount; and
provide an indication of an offer to sell said supplemental product at an offer amount.

102 - 112. (WITHDRAWN FROM CONSIDERATION)
